

**Vendor:** Cisco

**Exam Code:** 650-154

**Exam Name:** Cisco IronPort Security Professional-Web  
Security (ISPWS)

**Version:** DEMO

**QUESTION 1**

DRAG DROP

Match the configuration parameter with where it is found.

<div style="border: 1px solid black; padding: 5px; text-align: center;">L4TM configuration</div> <div style="border: 1px solid black; padding: 5px; text-align: center;">Access Policies</div> <div style="border: 1px solid black; padding: 5px; text-align: center;">Data Security Policies</div> <div style="border: 1px solid black; padding: 5px; text-align: center;">Global Anti-Malware Settings</div>	
<input type="checkbox"/> Select <input type="checkbox"/> Deselect	Threat Risk Threshold
<input type="checkbox"/> Select <input type="checkbox"/> Deselect	types of malware to be blocked
<input type="checkbox"/> Select <input type="checkbox"/> Deselect	upload size limits
<input type="checkbox"/> Select <input type="checkbox"/> Deselect	Allow List

**Answer:**

<div style="border: 2px solid red; padding: 5px; text-align: center;">Allow List</div>	<div style="border: 2px solid red; width: 30px; height: 20px;"></div>
<div style="border: 2px solid red; padding: 5px; text-align: center;">types of malware to be blocked</div>	<div style="border: 2px solid red; width: 30px; height: 20px;"></div>
<div style="border: 2px solid red; padding: 5px; text-align: center;">upload size limits</div>	<div style="border: 2px solid red; width: 30px; height: 20px;"></div>
<div style="border: 2px solid red; padding: 5px; text-align: center;">Threat Risk Threshold</div>	<div style="border: 2px solid red; width: 30px; height: 20px;"></div>
<input type="checkbox"/> Select <input type="checkbox"/> Deselect	Threat Risk Threshold
<input type="checkbox"/> Select <input type="checkbox"/> Deselect	types of malware to be blocked
<input type="checkbox"/> Select <input type="checkbox"/> Deselect	upload size limits
<input type="checkbox"/> Select <input type="checkbox"/> Deselect	Allow List

**QUESTION 2**

Per-user bandwidth limits are configured as part of what type of policy?

Select exactly 1 answer(s) from the following:

- A. user quota policies
- B. access policies
- C. AVC policies
- D. identity policies

Answer: A

**QUESTION 3**

Which of the following commands is used to tune the WSA proxy caching behavior?  
Select exactly 1 answer(s) from the following:

- A. webcache
- B. proxyconfig
- C. advancedproxyconfi
- D. proxy stat

Answer: C

**QUESTION 4**

If authentication is enabled, which of the following is true?  
Select exactly 1 answer(s) from the following:

- A. Client reports are not affected by authentication.
- B. Client reports will display both the user name and IP address of the clients.
- C. Client reports will display authenticated user names.
- D. Client reports will display the IP address of the authentication server.

Answer: C

**QUESTION 5**

DRAG DROP

Match the CLI Command to the use.

test layer 3 connectivity	
display interface packet counts	
test layer 4 connectivity	
resolve host names	
Select Deselect	netstat
Select Deselect	nslookup
Select Deselect	ping
Select Deselect	telnet

Answer:

The screenshot shows a network configuration interface with a list of commands and their corresponding actions. The commands are: test lapping, display int, test la, and reso. The actions are: ectivity, netstat, telnet, nslookup, ping, and telnet. The actions are listed in a column on the right, with some actions highlighted in green boxes. The interface includes 'Select' and 'Deselect' buttons for each row.

test lapping	ectivity
display int	netstat
test la	telnet
reso	nslookup

Select	Deselect	netstat
Select	Deselect	nslookup
Select	Deselect	ping
Select	Deselect	telnet

#### QUESTION 6

Which statement is true about WSA user authentication? Select exactly 1 answer(s) from the following:

- A. A single WSA can have up to two authentication realms: one for LDAP and one for NTLM.
- B. WSA supports NTLM, but not LDAP.
- C. A single WSA can have multiple LDAP realms.
- D. WSA supports LDAP, but not NTLM.

Answer: C

#### QUESTION 7

What is a benefit of NTLMSSP over Basic authentication? Select exactly 1 answer(s) from the following:

- A. NTLMSSP is more secure than Basic.
- B. Basic requires re-authentication with every new domain,
- C. NTLMSSP is compatible with OpenLDAP.
- D. Basic cannot be used in transparent proxy mode.

Answer: A

#### QUESTION 8

Which of the following commands is used to view the cache hit rate? Select exactly 1 answer(s) from the following:

- A. advancedproxyconfig
- B. proxyconfig
- C. webcache
- D. proxy stat

**Answer:** D

**QUESTION 9**

DRAG DROP

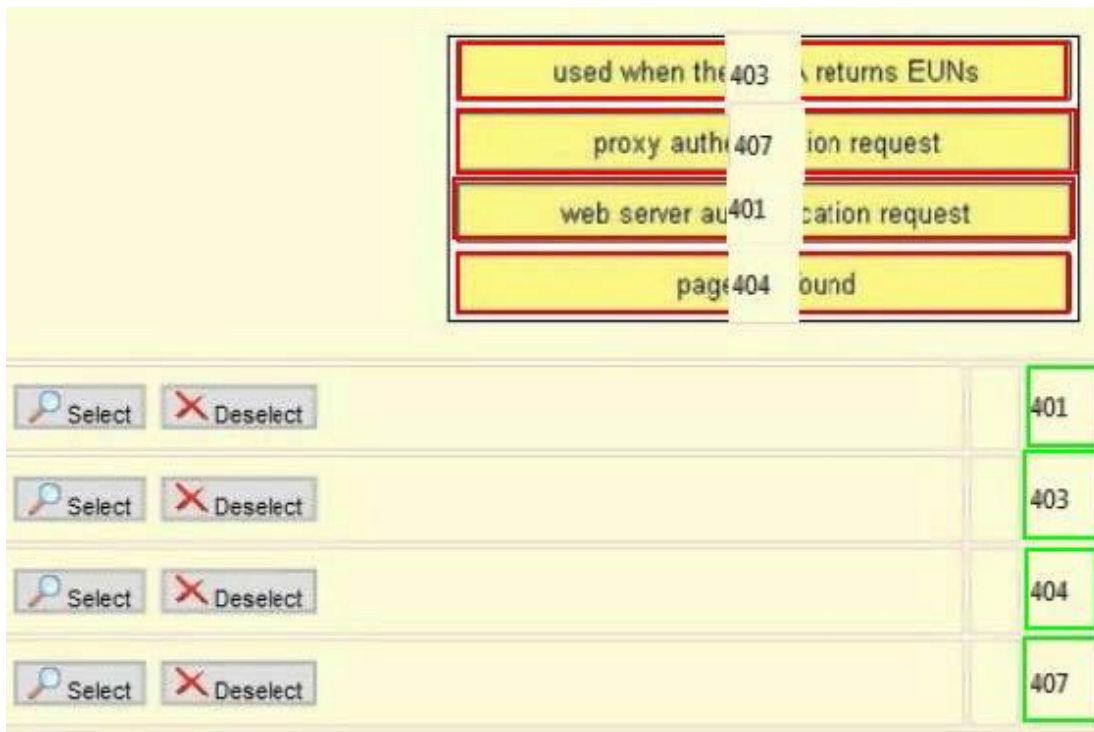

Match the HTTP response code with the meaning or use.

	used when the WSA returns EUNs
	proxy authentication request
	web server authentication request
	page not found

<input type="button" value="Select"/> <input type="button" value="Deselect"/>	401
<input type="button" value="Select"/> <input type="button" value="Deselect"/>	403
<input type="button" value="Select"/> <input type="button" value="Deselect"/>	404
<input type="button" value="Select"/> <input type="button" value="Deselect"/>	407

**Answer:**

#### QUESTION 10

In the System Setup Wizard, the default action for the WSA when malware is detected can be configured. Assume you do not change this setting when running the System Setup Wizard, What will this default action be set to? Select exactly 1 answer(s) from the following:

- A. drop
- B. monitor
- C. block
- D. allow
- E. pass through

**Answer: B**

## Thank You for Trying Our Product

### PassLeader Certification Exam Features:

- ★ More than **99,900** Satisfied Customers Worldwide.
- ★ Average **99.9%** Success Rate.
- ★ **Free Update** to match latest and real exam scenarios.
- ★ **Instant Download** Access! No Setup required.
- ★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.
- ★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad.**
- ★ **100%** Guaranteed Success or **100%** Money Back Guarantee.
- ★ **Fast**, helpful support **24x7**.
