Vendor: TIBCO

Exam Code: TB0-118

Exam Name: Architecting Composite Applications and Services with TIBCO

Version: DEMO

QUESTION 1
What are three things that can be managed via runtime policies? (Choose three.)

A. service granularity
B. request logging
C. service ownership
D. design versioning
E. access control
F. usage auditing

Answer: BEF

QUESTION 2
Which three aspects of design must be defined by the architect using a Total Architecture approach? (Choose three.)

A. system components
B. security policies
C. communication paths and communication mechanisms
D. interaction with human participants
E. use of Common Data Model schemas in service interfaces

Answer: ACD

QUESTION 3
In which format does TIBCO Designer store project trusted certificates?

A. PKCS12
B. PKCS7
C. KeyStore
D. PEM

Answer: D

QUESTION 4
What are two essential elements of a reference architecture? (Choose two.)

A. a concrete deployment model
B. an abstracted architecture pattern
C. a common data model
D. an abstracted process model

Answer: BD

QUESTION 5
Requirements call for a standards-compliant messaging solution. Which TIBCO product best meets this requirement?

A. TIBCO BusinessEvents

B. TIBCO ActiveMatrix Service Bus
C. TIBCO ActiveMatrix BusinessWorks
D. TIBCO ActiveMatrix Service Grid
E. TIBCO Enterprise Messaging Server

Answer: A

QUESTION 6
What is the root element of a TIBCO ActiveMatrix Service Bus design?

A. SCA component
B. SCA composite
C. mediation flow
D. Spring implementation type

Answer: D

QUESTION 7
You are deploying a Web Service that is bound to a JMS transport on multiple TIBCO
ActiveMatrix nodes.
What can you do to achieve service scalability?

A. reference a JMS topic in the JMS Destination Configuration resource template
B. reference a JMS queue in the JMS Destination Configuration resource template
C. configure a routed messaging topology with a multi-hop zone
D. configure queue-to-queue bridging without specifying a selector

Answer: C

QUESTION 8
When wrapping a backend system, what does a Web Service always provide that the native
system interface does not?

A. standardized service operation semantics
B. an HTTP-based interface
C. a common data model
D. access independent of implementation technology

Answer: D

QUESTION 9
Which two interaction patterns are supported in TIBCO ActiveMatrix Service Bus? (Choose two.)

A. Synchronous In-Out with SOAP/JMS
B. Asynchronous In-Out with SOAP/HTTP
C. Synchronous Out-In with XML over JMS
D. Asynchronous Out-Only with XML over JMS

Answer: AD

QUESTION 10
What is an important practical benefit of service discovery?

A. It allows programs to dynamically discover new features as needed.
B. It allows internal development groups to find functionality that can be reused.
C. It allows services to discover potential consumers using the UDDI protocol.
D. It allows governance groups to discover functionality that could become a service.

Answer: B

QUESTION 11
When a single instance of a service provider is no longer capable of handling the volume of activity due to the business process complexity required to handle each request, which two statements are true? (Choose two.)

A. XML compression reduces the load on the service providers.
B. Scalability can be improved using technology such as HTTP load balancers.
C. The feature should be re-architected as it is not a good candidate for Web Services.
D. Using a JMS-based transport can help improve scalability.

Answer: BD

QUESTION 12
Which two statements are true with respect to the granularity of a service? (Choose two.)

A. Fine-grained services are likely to be usable in many places, so you can ignore their access overhead.
B. Fine-grained service benefits may be outweighed by their access overhead.
C. Coarse-grained services are likely to be reusable because they encapsulate a lot of functionality
D. Coarse-grained services are less likely to be reusable because they encapsulate a lot of functionality.

Answer: BD

Thank You for Trying Our Product

PassLeader Certification Exam Features:

★ More than 99,900 Satisfied Customers Worldwide.

★ Average 99.9% Success Rate.

★ Free Update to match latest and real exam scenarios.

★ Instant Download Access! No Setup required.

★ Questions & Answers are downloadable in PDF format and VCE test engine format.

★ Multi-Platform capabilities - Windows, Laptop, Mac, Android, iPhone, iPod, iPad.

★ 100% Guaranteed Success or 100% Money Back Guarantee.

★ Fast, helpful support 24x7.
