

Vendor: Cloudera

Exam Code: CCA-332

Exam Name: Cloudera Certified Administrator for Apache Hadoop

Version: DEMO

QUESTION 1

Hadoop provides a web app for all of the following EXCEPT: (choose 1)

- A. Keeping track of the number of files and directories stored in HDFS.
- B. Keeping track of jobs running on the cluster.
- C. Browsing files in HDFS.
- D. Keeping track of tasks running on each individual slave node.
- E. Keeping track of processor and memory utilization on each individual slave node.

Answer: A

QUESTION 2

You have a cluster running with the Fair Scheduler enabled. There are currently no jobs running on the cluster, and you submit a job A, so that only job A is running on the cluster. A while later, you submit job B. Now job A and job B are running on the cluster at the same time. Which of the following describes how the Fair Scheduler operates? (Choose 2)

- A. When job B gets submitted, it will get assigned tasks, while job A continues to run with fewer tasks.
- B. When job A gets submitted, it doesn't consume all the task slots.
- C. When job A gets submitted, it consumes all the task slots.
- D. When job B gets submitted, job A has to finish first, before job B can get scheduled.

Answer: C

QUESTION 3

Which of the following statements is the most accurate about the choice of operating systems to run on a Hadoop cluster?

- A. Linux and Solaris/OpenSolaris are preferable to Windows. Solaris running on SPARC hardware is the preferred Hadoop slave node configuration.
- B. Linux is preferable to Windows and Solaris/OpenSolaris. Some Linux distributions are intended for cluster environments more than others.
- C. The choice of operating system isn't very important for a Hadoop cluster.
- D. Linux is preferable to Windows and Solaris/OpenSolaris, but the choice of Linux distribution is unimportant when planning a Hadoop cluster.

Answer: B

QUESTION 4

It is recommended that you run the HDFS balancer periodically. Why? (Choose 3)

- A. To improve data locality for MapReduce tasks.
- B. To ensure that there is capacity in HDFS for additional data.
- C. To help HDFS deliver consistent performance under heavy loads.
- D. To ensure that all blocks in the cluster are 128MB in size.
- E. To ensure that there is consistent disk utilization across the DataNodes.

Answer: BCE

Thank You for Trying Our Product

PassLeader Certification Exam Features:

- ★ More than **99,900** Satisfied Customers Worldwide.
- ★ Average **99.9%** Success Rate.
- ★ **Free Update** to match latest and real exam scenarios.
- ★ **Instant Download** Access! No Setup required.
- ★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.
- ★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.
- ★ **100%** Guaranteed Success or **100%** Money Back Guarantee.
- ★ **Fast**, helpful support **24x7**.
