QUESTION 2

Many organizations depend on web-based software to run their business processes, conduct transactions and deliver increasingly sophisticated services to customers. What is a key way that Rational AppScan helps organizations better secure those applications?

- A. It provides a run time monitor of web applications to prevent unwanted intrusions.
- B. It enables organizations to embed application security testing throughout the development life cycle to help increase visibility and control while employing a risk mitigation strategy.
- C. It provides authentication and identification services to ensure that only authorized users can access mission critical applications.
- D. It analyzes network traffic to identify trojan horses, malware, etc.

Answer: B
