A. Never add custom dashboards to a default menu.
B. Share custom menus between tenants with similar needs.
C. Use the Manage Menus page to organize dashboards in a meaningful way.
D. If specific dashboards should not be available to a user,add them to a menu as a dimmed menu item.

Answer: C

QUESTION 4
CA Performance Center can be uninstalled:

A. by using the Uninstall_PerformanceCenter program.
B. only if you first uninstall the Event Manager and then run sudo apt-get remove.
C. by using the Installation Wizard only,which will also uninstall MySQL data and temporary directories by default.
D. by first uninstalling the Data Aggregator and then following the prompts that will enable you to select the database and UI-related components to remove.

Answer: A

QUESTION 5

Are Data Collectors a required component of a CA Performance Management installation?

A. Yes,to use CA Performance Management,you need one or more Data Collectors.
B. No,you do not need Data Collectors if you are operating in a virtual environment.
C. No,Data Collectors are only needed if you need to collect data from remote locations.
D. No,you do not need to use Data Collectors if CA Mediation Manager is part of your installation.

Answer: A

QUESTION 6
When you configure event notifications, which factor should you always consider?

A. Other users might be able to view the notifications.
B. The action to delete notifications does not affect actual or future events.
C. Notifications will continue to appear when the Event Manager is set to disabled.
D. CA Performance Management needs to be configured to use port 162 to send traps.

Answer: B

QUESTION 7
Which feature characterizes event rules?

A. They are not included in the default monitoring profiles,but you can easily add them if they are
    needed.
B. If a specific event rule does not trigger a notification,it cannot be seen in an event list or
    dashboard view.
C. When they are newly created,they are not applied by the Data Aggregator until at least two polling
    cycles occur.
D. They enable significant occurrences within theIT infrastructure to be viewed in CA Performance
    Manager Dashboard views.

Answer: D

QUESTION 8
