

Vendor: EMC

Exam Code: E05-001

Exam Name: Information Storage and Management v3

Version: DEMO

QUESTION 1

What does the transformation of an operating model for third platform adoption involve?

- A. Provisioning IT resources through a self-service portal
- B. Establishing new roles and responsibilities to manage IT services
- C. Adopting virtualization technologies to enable automation
- D. Building new technical and business skills in the IT staff

Answer: A

QUESTION 2

What is an accurate statement about a data lake?

- A. Stores data as an exact or near-exact copy of the source format
- B. Supports query and analysis by classifying and organizing data before storing
- C. Stores current and historical data in a structured format on object-based storage
- D. Provides a single consistent view of data across an organization for report generation

Answer: A

QUESTION 3

Which capability is provided by a software-defined storage controller?

- A. Ability to pool and abstract physical storage and present it as an open storage platform
- B. Ability for multiple operating systems to run concurrently on a single physical compute system
- C. Mechanisms to automatically create application programming interfaces for centralized management
- D. Single self-contained package with integrated hardware and software components

Answer: A

QUESTION 4

What is a benefit of using converged infrastructure for building a data center?

- A. Reduces the time to acquire and deploy the infrastructure
- B. Provides the flexibility to purchase individual IT components
- C. Integrates existing IT components into the infrastructure
- D. Offers the flexibility to change vendors and prevent vendor lock-in

Answer: A

QUESTION 5

What is a function of the orchestration layer in a data center infrastructure?

- A. Provides workflows for automated execution of management tasks
- B. Aggregates physical infrastructure components into resource pools
- C. Measures the consumption of IT resources by various services
- D. Decouples an operating environment from the underlying hardware

Answer: A

QUESTION 6

Which product provides an integrated IT infrastructure solution for data center deployment by combining IT resources into a single package?

- A. VCE Vblock
- B. EMC VPLEX
- C. EMC ViPR
- D. VMware vCloud

Answer: A

QUESTION 7

Which VMware product provides a network virtualization platform for a software-defined data center?

- A. NSX
- B. ESXi
- C. Horizon
- D. AirWatch

Answer: A

QUESTION 8

Which process groups multiple physical drives and presents them to a compute system as a single logical volume?

- A. Concatenation
- B. Partitioning
- C. Striping
- D. Orchestration

Answer: A

QUESTION 9

What is a benefit of application virtualization?

- A. Avoids conflicts between different versions of the same application
- B. Enables an application to directly access a LUN on a storage system
- C. Runs applications without requiring the use of cache memory
- D. Presents more memory to an application than is physically available

Answer: A

QUESTION 10

What is an accurate statement about the application presentation technique of application virtualization?

- A. Application executes remotely and its user interface is transmitted to the client
- B. Application is downloaded in portions on the client for local execution
- C. Application executes on the client without the use of a locally-installed agent
- D. Application is converted into a standalone package that directly executes on the client

Answer: A

QUESTION 11

What is an accurate statement about the application streaming technique of application virtualization?

- A. Application is downloaded in portions on the client for local execution
- B. Application executes remotely and its user interface is transmitted to the client
- C. Application executes on the client without the use of a locally-installed agent
- D. Application is converted into a standalone package that directly executes on the client

Answer: A

QUESTION 12

What is an accurate statement about remote desktop services?

- A. Operating system and applications hosted on a remote compute system are shared by multiple users
- B. Users are provided dedicated virtual machines running operating system and applications, and hosted on a client system
- C. Users have the flexibility to install applications and modify operating system settings on the remote compute system
- D. Users' interface of the remote desktop is transmitted to the client without the use of a remote display protocol

Answer: A

QUESTION 13

What is an accurate statement about a virtual desktop infrastructure?

- A. Each user is provided a dedicated desktop VM with its own operating system and applications
- B. Operating system and applications hosted on a client system are shared by multiple users
- C. Each user has an individual desktop session on the remote compute system in which applications execute
- D. Operating system and applications on the remote desktop are downloaded on the client for local execution

Answer: A

Thank You for Trying Our Product

PassLeader Certification Exam Features:

- ★ More than **99,900** Satisfied Customers Worldwide.
- ★ Average **99.9%** Success Rate.
- ★ **Free Update** to match latest and real exam scenarios.
- ★ **Instant Download** Access! No Setup required.
- ★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.
- ★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.
- ★ **100%** Guaranteed Success or **100%** Money Back Guarantee.
- ★ **Fast**, helpful support **24x7**.
