

**Vendor:** Hitachi

**Exam Code:** HH0-250

**Exam Name:** Hitachi Data Systems Implementer - NAS

**Version:** DEMO

#### QUESTION 1

You are escalating a Hitachi NAS Platform related problem to the Hitachi Data Systems Global Support Center (GSC). What information can be gathered for analysis by GSC without impacting the connected clients? (Choose two.)

- A. Use diagnostic download through e-mail.
- B. Collect data with the internal packet-capture utility for 24 hours.
- C. Use the event log download.
- D. Force a core dump on the NFS clients.

**Answer:** AC

#### QUESTION 2

A problem with one of the two internal RAID-1 HDDs is reported by HiTrack on a single node Hitachi NAS Platform 3090 Generation 1 (G1). Which statement is correct?

- A. The NAS node must be shut down to replace the HDD.
- B. The HDD can be replaced without shutting down the NAS node.
- C. The customer will need new NAS licenses after the HDD is replaced.
- D. The SMU and node firmware needs to be reinstalled after the HDD replacement.

**Answer:** A

#### QUESTION 3

A customer is in the planning stages with Hitachi Data Systems for a Hitachi NAS Platform Metro Cluster implementation. Their Enterprise Networking group is informed they require a non-routable Wide Area Network (WAN) connection for Hitachi NAS Platform clustering. What is required for the Hitachi NAS Platform cluster interconnection?

- A. two FICON Extended Distance Solution cluster interconnect ports
- B. two 1 GbE cluster interconnect ports
- C. two optical OC-7144F cluster interconnect ports
- D. two 10 GbE cluster interconnect ports

**Answer:** D

#### QUESTION 4

You are integrating a Hitachi NAS Platform with Hitachi Device Manager (HDvM). Which two must be configured in the agent to be able to report to the HDvM database software? (Choose two.)

- A. the account in the built-in HDvM agent
- B. the default account in the HDvM agent
- C. the HDvM database server
- D. the account in the Windows or UNIX HDvM agent

**Answer:** AC

#### QUESTION 5

A Hitachi NAS Platform customer has implemented block-based TrueCopy replication between two data centers. They run a disaster recovery simulation every six months. Which command makes the volumes writable at the recovery site?

- A. horctakeover -g
- B. pairsplit -R
- C. sd-allow-access all
- D. sd-allow-write

**Answer: A**

#### QUESTION 6

A customer has Layer 2 switches at their network core and require partitioned traffic within their environment. Which Hitachi NAS Platform advanced networking feature should you enable?

- A. Set up Link Aggregation Control Protocol using a minimum of two ports on each of the customer's Layer 2 switches.
- B. Turn on jumbo frames for each of the network interfaces connected to the customer's Layer 2 switches.
- C. Enable VLAN tagging for the interfaces connected to the customer's Layer 2 switches.
- D. Assign IP addresses that all belong to the same subnet.

**Answer: C**

#### QUESTION 7

You are increasing the storage capacity feature license at a customer site. The customer currently has 20 TB licensed. You must upgrade the system to support 40 TB of storage capacity. Which license would you install?

- A. a 20 TB license key
- B. a 40 TB license key
- C. a 40 TB key including the original licensed features
- D. a site license for Hitachi NAS Platform

**Answer: A**

#### QUESTION 8

You are asked to install a two node Hitachi NAS Platform cluster at a customer site using brand new equipment delivered from the warehouse. Which two methods are used during System Management Unit (SMU) and node initial setup? (Choose two.)

- A. Use CLI commands connected through a serial nulmodem cable.
- B. Use Hitachi Device Manager software.
- C. Use the Graphical User Interface (GUI) with Internet Explorer.
- D. Use the smu-initialize command.

**Answer: AC**

**QUESTION 9**

You are implementing a Hitachi NAS Platform system into a Windows 2003 Active Directory (AD) environment with Dynamic Domain Name Services (DDNS) disabled. Which two steps should be performed when adding additional CIFS serving names to a virtual server? (Choose two.)

- A. Add the CIFS serving name using the CIFS Setup section of the GUI.
- B. Manually create the computer account in the domain using the NT4 Server Manager.
- C. Manually create the computer account in Active Directory.
- D. Add a host record to DNS.

**Answer:** AD

**QUESTION 10**

A customer requires a data protection solution for their Hitachi NAS environment providing minimum utilization of extra storage space and they are considering implementing JetClone. Which three key features support the efficient use of storage space? (Choose three.)

- A. JetClone copies and shares named data streams.
- B. JetClone allows VMware to deploy new virtual machines without using additional storage.
- C. JetClone shares unmodified user data between source files and new files.
- D. JetClone creates and maintains a clone of user data.
- E. JetClone copies and shares metadata.

**Answer:** BCE

**QUESTION 11**

A customer has purchased two Hitachi NAS Platform systems, one for their production Windows file serving environment, the other to be used to centralize backups at a remote data center. The customer is concerned about WAN utilization during production hours. Which Hitachi NAS Platform replication scheduling option should you select?

- A. daily
- B. hourly
- C. continuous
- D. once

**Answer:** A

**QUESTION 12**

A customer wants their Hitachi NAS Platform to be monitored with HiTrack. Their change control team wants to know what should be performed on the HiTrack console. What are two steps that should be performed? (Choose two.)

- A. Enter the event management IP address.
- B. Enter the serial number.
- C. Enter SMU IP address.
- D. Enter the administrative EVS IP address.

**Answer:** BD

## Thank You for Trying Our Product

### PassLeader Certification Exam Features:

- ★ More than **99,900** Satisfied Customers Worldwide.
- ★ Average **99.9%** Success Rate.
- ★ **Free Update** to match latest and real exam scenarios.
- ★ **Instant Download** Access! No Setup required.
- ★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.
- ★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad.**
- ★ **100%** Guaranteed Success or **100%** Money Back Guarantee.
- ★ **Fast**, helpful support **24x7**.
