Exam Code: HP0-919

Exam Name: HP Data Protector Software Application

Integration-UNIX

Vendor: HP

Version: DEMO

Part: A

1: What must be considered when migrating the Cell Manager from a PA-RISC to an Integrity system?
A.Reinstall the media agents.
B.The new Cell Server should have the same name.
C.Import the Internal Database (IDB) from tape media.
D.The new Cell Server should have the same IP address.
Correct Answers: D

2: What must be done to integrate Data Guard on UNIX systems?
A.Install the Data Guard Integration Agent.
B.Start the HP Data Protector Software Inet service as Oracle user.
C.Start RMAN from the HP Data Protector Software admin account.
D.Add the Oracle user to the HP Data Protector Software admin group.
Correct Answers: D

3: What must be done to migrate the Internal Database (IDB) from a PA-RISC to an Itanium system?
A.omnidbutil
B.omniupdate.pl
C.omnidbcheck
D.omnimigrate.pl
Correct Answers: D

4: Which operation is unsupported for an Oracle standby database?
A.physical backup
B.backup using the recovery catalog
C.conversion to a standalone database
D.configuration with a primary database
Correct Answers: C

5: You want to integrate HP Data Protector Software with Oracle-based SAP R/3 on UNIX. Which backup modes can you use? (Select two.)
A.RMAN
B.backint
C.SAPback
D.BRTOOLS
E.BRBACKUP
Correct Answers: A B

6: Where must you specify the login credentials with util_oracle8.pl to configure a new Oracle standby database?
A.Oracle database server

B.on each Oracle standby instance

C.HP Data Protector Software Cell Manager

D.database server and the standby systems

Correct Answers: B

7: For which Oracle database type is the exclusion of single objects from a full backup unsupported?

A.standby database

B.standalone database

C.recovery catalog database

D.multiple-instances database

Correct Answers: A

8: You are integrating an SAP R/3 backup running on UNIX in HP Data Protector Software. What must be done before using the Oracle online backup functionality?

A.Link HP Data Protector Software library to Oracle.

B.Add sysdba user account to HP Data Protector Software userlist.

C.Replace omnidb command with Oracle version of this command.

D.Add ORACLE_SID variable in HP Data Protector Software global file.

Correct Answers: A

9: What is the purpose of online migration in ASM (Automated Storage Management)?

A.data movement from disk to disk

B.online replication to a standby database

C.online database backup to tape devices

D.data sharing between different database servers

Correct Answers: A

10: What is the recommended method to configure HP Data Protector Software version 6.0 Cell Manager after migration from HP-UX 11.x to HP-UX V.11.23?

A.Create a local user account on the Cell Manager, log in to it, and use the Command Line Interface.

B.Create a remote user account on the Cell Manager, connect to it from a remote system and use telnet.

C.Log in to the Cell Manager locally using the root account, and use the HP Data Protector Software graphical user interface.

D.Create a remote user account on the Cell Manager, connect to it from a remote system and use the HP Data Protector Software graphical user interface.

Correct Answers: D

11: Which HP Data Protector Software command is used to set, retrieve, list or delete SAP R/3 configuration file parameters?

A.util_sap

B.util_cmd

C.sap_conf

D.sapbd_util

Correct Answers: B

12: You want to integrate an SAP R/3 instance into HP Data Protector Software. Which command lists all configured SAP R/3 instances on the integrated client?

A.omnisap -APP

B.omnisap -LIST

C.util_sap.exe -LIST

D.util_sap.exe -APP

Correct Answers: D

13: When using util_sap.exe -CONFIG to configure the SAP R/3 integration in HP-UX, what happens with backint?

A.It is linked to the BR_TOOLS directory.

B.It is copied to the BR_TOOLS directory.

C.It is added into the PATH variable of root.

D.It is patched to the latest supported version.

Correct Answers: A

14: What is the reason for the Backup Session Manager (BSM) delay after all General Media Agents have finished data transfer during an SAP/R3 backup session?

A.completion of the SAP/R3 database check

B.default time-out value of five minutes for backint processes

C.completion of the log synchronization on the SAP/R3 system

D.Integration Agent synchronization with the Internal Database (IDB)

Correct Answers: B

15: Which HP Data Protector Software command provides the information required to configure an SAP R/3 integration?

A.sap_init

B.util_sap

C.sap_conf

D.util_sapdb

Correct Answers: B
