

Vendor: Cisco

Exam Code: 642-384

Exam Name: Cisco Express Foundation for Field Engineers
(CXFF)

Version: DEMO

QUESTION 1

Which design phase service component includes the development and documentation of the test case or cases used to verify that a deployed infrastructure meets operational, functional, and interface requirements?

- A. Implementation Plan
- B. Business Plan
- C. Staging Plan
- D. Detailed Design Development
- E. Systems Acceptance Test Plan Development

Answer: E

QUESTION 2

Which of these is the best definition of the Cisco Lifecycle Services approach?

- A. It defines the minimum set of services required to successfully deploy and operate a set of Cisco technologies.
- B. It determines how best to price Cisco products.
- C. It provides partners with a useful way to leverage Cisco resources.
- D. It consists of these phases: plan, deploy, support, and troubleshoot.

Answer: A

QUESTION 3

In which of these phases is a customer's current network infrastructure assessed?

- A. plan
- B. design
- C. implement
- D. prepare

Answer: A

QUESTION 4

Which two benefits will a client see from adding a Wireless LAN Controller to their Smart Business Communications System? (Choose two.)

- A. allow for guest access
- B. increase connection speeds
- C. add additional access points
- D. network management with CLI

Answer: AC

QUESTION 5

Which three business requirements development activities are performed in the prepare phase before creating a technology strategy? (Choose three.)

- A. identifying and assessing customer business requirements
- B. documenting and categorizing customer business requirements in terms of performance, availability, capacity, and security
- C. producing a documented technology strategy
- D. creating a bill of materials
- E. presenting documented business requirements to a customer and having the customer validate them
- F. completing a site survey

Answer: ABE

QUESTION 6

Which benefit can be obtained by using the change management service component in the operate phase?

- A. reduced operating costs, due to a consistent framework for making necessary changes in an efficient and accountable manner
- B. greater accuracy, completeness, and timeliness of network configuration information
- C. notification provided to interested parties regarding problems that have been identified, and a system that scales with customer requirements
- D. improved system service quality and fewer disruptions

Answer: A

QUESTION 7

The Cisco SA 500 Series Security Appliances are built specifically for businesses with less than 100 employees. What are three important benefits of this device? (Choose three.)

- A. business-grade firewall
- B. premium support via SMARTnet
- C. site-to-site VPN for remote offices
- D. Cisco IOS software-based
- E. email security
- F. XML support

Answer: ACE

QUESTION 8

Which three are integrated Smart Applications included with the Cisco Unified Communications 500 Series? (Choose three.)

- A. Smart Business Suite
- B. Connected Data Protector
- C. TimeCard View
- D. Cisco Unified CallConnector
- E. Cisco WebEx PhoneConnect
- F. VoiceView Express

Answer: CEF

QUESTION 9

What are two uses for USB ports on ISRs? (Choose two.)

- A. increased memory capabilities
- B. secure device authentication
- C. bulk flash storage
- D. control over the types of files that can be stored
- E. digital certificate storage

Answer: BC

QUESTION 10

What were two primary design purposes for ISRs? (Choose two.)

- A. to provide a centralized threat database for IPS sensors
- B. to bring IP telephony, voice mail, email, and firewall services to the end user
- C. to implement and to integrate fully network services such as security, WAN routing, and Ethernet switching
- D. to offer Fast Ethernet and 10 Gigabit Ethernet as a high-speed routing platform
- E. to be a next-generation, high-performance routing platform
- F. to provide all security-management functions in one high-performance device

Answer: CE

QUESTION 11

Which command displays the routing information that will be used to move data between VLANs on a router on a stick?

- A. Router# show ip protocols
- B. Router# show ip route
- C. Router# show vlan[vlan_ID]
- D. Router# show vlan route

Answer: B

QUESTION 12

Which two are characteristics of HSSI cables? (Choose two.)

- A. HSSI cables use a female, 10-pin, SCSI-II-type connector.
- B. The HSSI connector and the HSSI cable are identical.
- C. HSSI cables use cable CAB-HSI1 and cable CAB-HNUL.
- D. The HSSI connector and the HSSI cable are similar.
- E. The CAB-HNUL is used to connect your router to an external DSU.

Answer: CD

QUESTION 13

What are two ways to secure traffic across a network? (Choose two.)

- A. Cisco ISR G2
- B. identity-management devices
- C. ACLs
- D. firewalls
- E. VPN connection
- F. VLANs

Answer: CD

QUESTION 14

Which three elements can you review when examining the traffic across a network? (Choose three.)

- A. VPN connection
- B. packet flows
- C. ACLs
- D. states
- E. connections
- F. firewalls
- G. mainframe

Answer: BDE

QUESTION 15

Which three types of ACL would you use to secure traffic on the network? (Choose three.)

- A. VLAN
- B. reflexive
- C. packets
- D. dynamic
- E. IPS
- F. firewalls

Answer: ABD
