

Vendor: IBM

Exam Code: A2010-507

Exam Name: Assessment: IBM Tivoli Monitoring V6.3
Implementation

Version: DEMO

QUESTION 1

Which three database products are supported for the Tivoli Data Warehouse database? (Choose three.)

- A. Derby
- B. Oracle
- C. Sybase
- D. MS SQL
- E. IBM DB2
- F. IBM Informix

Answer: BDE

QUESTION 2

Which two items can be specified while configuring a Tivoli Enterprise Monitoring Server (TEMS)? (Choose two.)

- A. TEMS gateways
- B. configure Hot Standby TEMS
- C. Tivoli Event Integration Facility
- D. hostname of the data warehouseserver
- E. hostname of the Tivoli Enterprise Portal Server

Answer: BC

QUESTION 3

What are three supported relational databases for the Tivoli Enterprise Portal Server? (Choose three.)

- A. Derby
- B. Oracle
- C. Sybase
- D. Informix
- E. IBM DB2
- F. SQL Server

Answer: AEF

QUESTION 4

The Summarization and Pruning Agent is not creating summarization tables in the Tivoli Data Warehouse and the test connection option which is provided during configuration works successfully. What could be the problem?

- A. The warehouse user does not have database owner permissions.
- B. The warehouse user does not have local administrator permissions.
- C. The warehouse driver to access the database is not configured correctly.
- D. The agent was configured for MS SQL but the database is actually IBM DB2.

Answer: A

QUESTION 5

What is the function of the Synchronize Tivoli Enterprise Portal Server (TEPS) Warehouse Information checkbox on the Warehouse Proxy agent configuration window?

- A. to apply changes to the Warehouse Proxy agent to the TEPS
- B. to synchronize databases on the primary and secondary TEPS
- C. to store the Warehouse Proxy agent settings in the TEPS database
- D. to synchronize the Tivoli Data Warehouse database and the TEPS database

Answer: A

QUESTION 6

How is dynamic tracing turned on for a Tivoli Enterprise Monitoring Server running in a Windows environment?

- A. run tacmd traceMS
- B. run itmcmd traceMS
- C. use the IBM Tivoli Monitoring Service Console
- D. use Managed Tivoli Enterprise Monitoring Services

Answer: C

QUESTION 7

Which command restores a Tivoli Enterprise Portal Server configuration on a UNIX system from a backup?

- A. tacmd cq "runscript.sh migrate-import.sh"
- B. itmcmd cq "runscript.sh migrate-import.sh"
- C. tacmdexecute cq "runscript.sh migrate-import.sh"
- D. itmcmd execute cq "runscript.sh migrate-import.sh"

Answer: D

QUESTION 8

At which two levels can User Authorization privileges be defined? (Choose two.)

- A. user level
- B. group level
- C. LDAP grouplevel
- D. operating system user group level
- E. Tivoli Enterprise Monitoring Server level

Answer: AB

QUESTION 9

Which command is used to restore backed up workspaces?

- A. tacmd importWorkspaces

- B. itmcmd importWorkspaces
- C. tacmd executeimportWorkspaces
- D. itmcmd execute importWorkspaces

Answer: A

QUESTION 10

A customer created a workspace that has several views. Each view displays data from the same attribute group but uses a separate query to return only the attributes that are needed for each view. Which action would improve performance?

- A. do not change the query because queries are optimized for performance
- B. enable each query to return all attributes and use filters to select the desired data
- C. replace the multiple queries with one query that returns all the data for the entire workspace
- D. recommend the usage of several customized queries because they are each smaller than a large query and will run faster

Answer: C

QUESTION 11

A customer created a workspace that has several views. Each view displays data from a different attribute group and uses a unique query to return only the attributes that are needed for each view. What can be done to improve performance?

- A. combine the queries into one large query
- B. use Return all Rows for each of the views
- C. nothing -- queries cannot be combined from different attribute groups
- D. enable queries to return all attributes and use filters to select the desired data

Answer: C

QUESTION 12

The formatted command string after variable substitution is limited to how many characters?

- A. 64
- B. 128
- C. 256
- D. 512

Answer: C

QUESTION 13

An administrator is given the task to monitor for a stopped service which is set to Automatic Startup and with the name of Spooler. Which expression gives the best performance for this situation?

- A. Current State = Stopped AND Service Name = Spooler AND Start Type = Automatic
- B. Service Name = Spooler AND Start Type = Automatic AND Current State = Stopped
- C. Start Type = Automatic AND Service Name = Spooler AND Current State = Stopped

D. Current State = Stopped AND Start Type = Automatic AND Service Name = Spooler

Answer: B

QUESTION 14

Which method converts a table view to a bar chart in a Tivoli Enterprise Portal(TEP) workspace?

- A. click the Bar Chart icon and then click in the table view
- B. Select View > Show Bar Chart from the TEP command bar
- C. Open View > Properties and select Bar Chart on the Style tab
- D. Open Workspace Properties and click on the Bar Chart option

Answer: A

For System MVSA

Given the sample Tivoli Enterprise Portal (TEP) view, which two statements are true regarding the highlighted icon? (Choose two.)

- A. The presence of this icon indicates that the TEP user ID has permission to perform historical configuration.
- B. Clicking on this icon allows the configuration of historical collection parameters for the attribute group displayed in this view.
- C. The presence of this icon indicates that the attribute group displayed in this view has been configured for historical collection.
- D. Clicking on this icon allows the specification that historical data should be retrieved and displayed for the attribute group in this view.
- E. Clicking on this icon displays how much historical data is stored in the Tivoli Data Warehouse for the attribute group displayed in this view.

Answer: CD

Thank You for Trying Our Product

PassLeader Certification Exam Features:

- ★ More than **99,900** Satisfied Customers Worldwide.
- ★ Average **99.9%** Success Rate.
- ★ **Free Update** to match latest and real exam scenarios.
- ★ **Instant Download** Access! No Setup required.
- ★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.
- ★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad.**
- ★ **100%** Guaranteed Success or **100%** Money Back Guarantee.
- ★ **Fast**, helpful support **24x7**.
