Vendor: VMware

Exam Code: 2V0-62.21

Exam Name: Professional VMware Workspace ONE 21.X

Version: DEMO

QUESTION 1
Which two statements are true about Content Gateway and Tunnel on Unified Access Gateway?
(Choose two.)

A. Both can be configured with the same hostname on port 8443.
B. Both can be configured with the same hostname on different ports.
C. Both can be configured on port 8443 with different hostnames.
D. Both can be configured with the same hostname on port 443.
E. Both can be configured on port 443 with different hostnames.

Answer: BE
Explanation:
Content Gateway only supports inbound 443 because that is what iOS or Android use. The tunnel
is more flexible.

vmware-workspace-one-operational-tutorial#architecture

QUESTION 2
Which two configuration steps must be performed when managing iOS devices? (Choose two.)

A. Obtain an Apple Server Certificate.
B. Obtain an Apple ID.
C. Obtain an APNS certificate.
D. Obtain an Apple Developer ID.
E. Obtain an iCloud Account.

Answer: BC
Explanation:
https://docs.vmware.com/en/VMware-Workspace-ONE-UEM/2102/UEM_Installation/GUID-AWT-
NEXTSTEPSKEY.html?hWord=N4IghgNiBcIIIAcEQKYAICSAREBfIA
- You may also need to create a corporate Apple ID.
- If your deployment includes Apple iOS devices, you must generate an APNs certificate on
behalf of your company.

QUESTION 3
Which three features within Hub Services can an administrator leverage when Workspace ONE
Access is configured and integrated with Workspace ONE UEM? (Choose three.)

A. Email Notification
B. Mobile Flows
C. AirLift
D. Virtual Assistant
E. People

Answer: BDE
Explanation:
When Workspace ONE Access is integrated with Workspace ONE UEM, you can create a fully
digital workspace experiences for users with additional Hub Services features including the
People service, Notifications through Workspace ONE mobile flows, and a Hub virtual assistant
chatbot.

709B42DE-D3B8-476C-B751-4BB21110FD48.html

QUESTION 4
You are an administrator configuring custom reports in Workspace ONE Intelligence.

What is the maximum number of custom reports you can create per Organization Group (OG)?

A. 10
B. 50
C. 99
D. 500

Answer: C
Explanation:
You can create and run up to 100 reports for each organization group (OG). If you have 100 reports in an OG but you need another unique report, you must delete a report to make space. https://docs.vmware.com/en/VMware-Workspace-ONE/services/intelligence-documentation/GUID-28_intel_reporting.html#limits-to-the-number-of-reports

QUESTION 5
An administrator wants to leverage the Workspace ONE Web application to allow end-user credentials to be passed to specific internal sites.

Which security policy in Workspace ONE UEM must be configured?

A. Offline Access
B. Single Sign-On
C. Network Access Control
D. Integrated Authentication

Answer: D
Explanation:
Website Level - Disable integrated authentication to require end users to authenticate when they access internal sites.

QUESTION 6
When creating third party identity providers in Workspace ONE Access, which two SAML assertion components can be used to identify the user? (Choose two.)

A. NameID Element
B. SAML Attribute
C. SAML EntityID
D. NameID Signature
E. SAML Issuer

Answer: AB
Explanation:
https://docs.vmware.com/en/VMware-Workspace-ONE-Access/20.01/ws1_access_authentication/GUID-0C459D5A-A0FF-4893-87A0-10ADDC4E1B8D.html
SAML Metadata

Select how the user is identified. The identifier sent in an inbound SAML Assertion can be either sent in the Subject or in the Attribute element.
- "NameID Element". User identifier is retrieved from the NameID element of the Subject element.
- "SAML Attribute". User identifier is retrieved from a specific Attribute or AttributeStatement element.

QUESTION 7
Which is required during installation of the Workspace ONE Intelligence Connector service?

A. Workspace ONE Intelligence Connector service must be installed on the AWCM Server.
B. Workspace ONE Intelligence Connector must be installed on the Console Server.
C. Workspace ONE Intelligence Connector service must be installed on the Device Services Server.
D. Workspace ONE Intelligence Connector must be installed on its own server.

Answer: D
Explanation:
You must install the Workspace ONE Intelligence Connector service on its own server before you can use Workspace ONE Intelligence features.
https://docs.vmware.com/en/VMware-Workspace-ONE/services/intelligence-documentation/GUID-04_intel_reqs.html

QUESTION 8
What two features of Hub Services can be enabled without enabling Workspace ONE Access and having the authentication mode set to Workspace ONE UEM? (Choose two.)

A. enable SSO for applications
B. enable People Search
C. notifications for iOS and Android
D. Hub Virtual Assistant Chatbot
E. Hub Catalog layout

Answer: CE
Explanation:
Hub Services can operate with Workspace ONE UEM alone providing a subset of Hub Services features - Catalog for UEM apps, Notification, Self-Service Support, and Custom Tab.
https://docs.vmware.com/en/VMware-Workspace-ONE/services/intelligent-hub_IDM/GUID-012E7722-FC83-4EF5-8ADD-2457E29720FE.html

QUESTION 9
Which two Workspace ONE UEM core components are required for all on-premises environments? (Choose two.)

A. Device Services
B. AirWatch Cloud Connector
C. Unified Access Gateway
D. Secure Email Gateway
E. Console Services

Answer: AE
Explanation:

Syncing with internal resources such as Active Directory or a Certificate Authority can be achieved directly from the core components (Device Services and Admin Console) or using an AirWatch Cloud Connector.
The implementation is separated into the three main components:
- Workspace ONE UEM Admin Console
- Workspace ONE UEM Device Services
- AirWatch Cloud Connector
https://techzone.vmware.com/resource/workspace-one-uem-architecture#on-premises-architecture

QUESTION 10
A Workspace ONE UEM administrator is migrating collections, applications, and policies from SCCM to Workspace ONE.

When using AirLift, which three of the following must the administrator allow AirLift to access on the ConfigMgr server? (Choose three.)

A. Port 443 or specified TLS port if Secure Connection is configured
B. WinRM port (typically 5985)
C. Port 3268 or the specified Global Catalog port
D. Port 389 for Active Directory
E. Interactive Login Permissions

Answer: ABE
Explanation:
You must allow Workspace ONE AirLift the following access to the ConfigMgr server:
- WinRM port (typically 5985)
- Port 443 or the specified TLS port if Secure Connection is configured.
- Interactive Log in Permissions - Ensure that AD user account settings or security policy settings do not deny local log in.

QUESTION 11
Which protocol does Workspace ONE use to communicate with third party Identity Providers?

A. SAML
B. Kerberos
C. RADIUS
D. OAuth

Answer: A
Explanation:
Workspace ONE Access supports identity providers that are compatible with the SAML 2.0 and OpenID Connect 1.0 protocols.
