

Vendor: Juniper

Exam Code: JN0-212

Exam Name: Cloud, Associate (JNCIA-Cloud)

Version: DEMO

QUESTION 1

Which two statements are true about an SDN controller?(Choose two.)

- A. An SDN controller automates repetitive tasks in a network
- B. An SDN controller regulates traffic transmission rates in a network
- C. An SDN controller centralizes control and configuration of a network
- D. An SDN controller stores and manages software images

Answer: AC

QUESTION 2

Which CSO component enables ISPs to set up and manage the virtual network and customers?

- A. Service and Infrastructure Monitor
- B. Designer Tools
- C. Administration Portal
- D. Customer Portal

Answer: C

QUESTION 3

You must create a security policy that works cross your multicloud, Kubernetes, and OpenStack deployments.

Which product will accomplish this task?

- A. Contrail Security
- B. Policy Enforcer
- C. Sky ATP
- D. Juniper ATP

Answer: D

QUESTION 4

What are three orchestrators that integrate with Contrail? (Choose three)

- A. VirtualBox
- B. Kubernetes
- C. Ubuntu
- D. OpenStack
- E. vSphere

Answer: BDE

QUESTION 5

You are using the NorthStar Controller to manage your WAN. You are required to remove a node from the network for maintenance purposes. You want to compute and provision alternate forwarding paths so that traffic is re-routed around the node being taken offline for maintenance. Which NorthStar Controller feature would be used in this scenario?

- A. path diversity
- B. maintenance mode
- C. shared risk link groups
- D. node diversity

Answer: A

Explanation:

The slide is titled "Path Diversity" and is part of the "Juniper Cloud Fundamentals" presentation. It lists the following benefits of NorthStar:

- NorthStar benefits
 - Reduce risk from node and link failures
 - NorthStar global view of the network enables path diversity to avoid single points of failure
 - Maintain SLAs during both normal and failure scenarios
 - Eliminate shared risk link groups
 - Implement in both 1:1, 1+1, and/or 1:N protection options
 - Backup and/or multiple active load-balancing paths

Below the text are two network diagrams illustrating the concept of shared risk elimination. The left diagram, labeled "Warning! Shared Risk", shows a network topology where a single link (the Primary Link) connects San Francisco and Denver, and another link (the Secondary Link) connects San Francisco and Denver. A red arrow points to the Primary Link, indicating a warning of shared risk. The right diagram, labeled "Shared Risk Eliminated", shows the same topology but with the Primary Link and Secondary Link now being separate paths, eliminating the shared risk. A green arrow points to the Primary Link, indicating that the shared risk has been eliminated. A legend at the bottom of each diagram identifies the Primary Link (green line) and Secondary Link (red line).

QUESTION 6

You are using service chains.

In this scenario, which component launches the NFV VM?

- A. vRouter
- B. NorthStar Controller
- C. compute node
- D. orchestrator

Answer: C

QUESTION 7

Your company has three connections consisting of MPLS, Internet, and wireless connections, respectively. You must separate traffic according to the type of application sending that traffic across the three links.

Which product will facilitate this requirement?

- A. Contrail SD-WAN
- B. Contrail Cloud
- C. Contrail networking

D. Contrail SD-LAN

Answer: A

QUESTION 8

Which two statements are true regarding private cloud services? (Choose two.)

- A. A private cloud must apply encryption to all stored data
- B. A private cloud has dedicated resources for individual customers
- C. A private cloud can be deployed in a service provider network
- D. A private cloud cannot connect to a public cloud

Answer: BC

QUESTION 9

You are required to set up zero-day malware detection for your private cloud without sending files off site for analysis.

What will accomplish this task?

- A. JATP
- B. IDP
- C. UTM
- D. Sky ATP

Answer: D

QUESTION 10

Which two statements are true about cSRX firewalls? (Choose two.)

- A. The host OS can be different from the guest OS
- B. The host OS and image OS must match
- C. The cSRX does not use static CPU reservations
- D. The cSRX uses static CPU reservations

Answer: AD

QUESTION 11

Which statement defines a public cloud?

- A. The cloud infrastructure is a composition of two or more strict cloud infrastructures
- B. The cloud infrastructure is provisioned for exclusive use by a specific community of consumers from organizations that have shared concerns
- C. The cloud infrastructure is provisioned for exclusive use by a single organization comprising multiple consumers
- D. The cloud infrastructure is provisioned for open use by the general Public

Answer: D

QUESTION 12

Which statement is correct about SDN?

- A. The SDN controller has a centralized view of the network
- B. The SDN controller must provide a manual method for configuration
- C. SDN simplifies the network by combining the control and forwarding planes into a single controller
- D. The configuration and management of an SDN solution should be distributed to the edge of the network

Answer: A

QUESTION 13

AppFormix alarm notification are sent to an HTTP server using which format?

- A. plain text
- B. XML
- C. CSV
- D. JSON

Answer: D

QUESTION 14

What are two examples of public cloud providers? (Choose two.)

- A. eBay
- B. Netflix
- C. Microsoft Azure
- D. Amazon Web Services

Answer: CD

QUESTION 15

From where does AppFormix gather performance metrics in a network?

- A. from RPM probes sent across the network
- B. from statistics NFVs instantiated in the data path
- C. from an agent on the host or system
- D. from a REST API connection

Answer: C

Thank You for Trying Our Product

Passleader Certification Exam Features:

- ★ More than **99,900** Satisfied Customers Worldwide.
- ★ Average **99.9%** Success Rate.
- ★ **Free Update** to match latest and real exam scenarios.
- ★ **Instant Download** Access! No Setup required.
- ★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.
- ★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.
- ★ **100%** Guaranteed Success or **100%** Money Back Guarantee.
- ★ **Fast**, helpful support **24x7**.
