

**Vendor:** VMware

**Exam Code:** 1V0-31.21

**Exam Name:** Associate VMware Cloud Management and Automation

**Version:** DEMO

**QUESTION 1**

The storage team has just deployed a SAN from a new vendor. The operations team has asked for it to be monitored, but a vendor specific management pack must be downloaded and installed first.

Where should this task be completed?

- A. In the administration interface of vRealize Log Insight
- B. Under the Infrastructure menu in Cloud Assembly
- C. Under Cloud Accounts in the Administration tab in vRealize Operations Manager
- D. In the Marketplace feature of vRealize Suite Lifecycle Manager

**Answer: C**

**Explanation:**

Monitoring and managing storage devices like a SAN, including the installation of vendor-specific management packs, is typically done within the administration interface of vRealize Operations Manager. The "Cloud Accounts" section is not directly related to managing storage devices and management packs; it's more about managing cloud-related accounts and configurations for vRealize Operations Manager.

**QUESTION 2**

To reduce the possibility of unnecessary outages to critical production applications, an administrator has been tasked with ensuring that all shut down and reboot Day 2 operations for deployments within a project are only completed if the service owner gives permission. Which type of Service Broker policy should an administrator configure to meet this objective?

- A. Resource Quota
- B. Lease
- C. Day 2 Action
- D. Approval

**Answer: D**

**Explanation:**

An approval policy is a Service Broker policy that requires approval from a specific user or group before a Day 2 operation can be performed on a deployment. This policy can be used to enforce governance and control over Day 2 operations, such as shut down and reboot operations.

**QUESTION 3**

Which two types of content can be included when creating a custom dashboard? (Choose two.)

- A. Reports
- B. Widgets
- C. Logs
- D. Views
- E. Scenarios

**Answer: BD**

**Explanation:**

Widgets are the building blocks of dashboards in vRealize Operations. They are used to visualize data in a variety of ways, such as charts, graphs, and tables.

Views are used to organize and group widgets together on a dashboard. Views can be nested within other views to create complex and informative dashboards.

**QUESTION 4**

An administrator is tasked to allow the organization's users to consume vRealize Automation services.

Which solution is used for this configuration?

- A. vCenter Server
- B. Active Directory
- C. vRealize Suite Lifecycle Manager
- D. Workspace ONE Access

**Answer: D**

**Explanation:**

Workspace ONE Access is a VMware product that provides single sign-on (SSO) and access management for a wide range of applications and services, including vRealize Automation.

**QUESTION 5**

An administrator wants to integrate vRealize Automation with the VMware Marketplace to import pre-defined Cloud Templates.

Which integration must the administrator configure?

- A. SaltStack
- B. Orchestrator
- C. Operations Manager
- D. My VMware

**Answer: D**

**Explanation:**

To integrate vRealize Automation with the VMware Marketplace and import pre-defined Cloud Templates, the administrator would typically configure the integration with "My VMware." My VMware is the platform where you can access and download various VMware software and content, including cloud templates, which can be imported into vRealize Automation for use in your environment.

**QUESTION 6**

Why would the health status of an environment be missing in vRealize Suite Lifecycle Manager (vRSLCM)?

- A. Identity Manager is not deployed in the environment.
- B. vRealize Log Insight is not deployed in the environment.
- C. The SDDC Management Health solution pack is not configured in vRealize Operations Manager.
- D. The vRSLCM Management solution pack is not configured in vRealize Operations Manager.

**Answer: C**

**Explanation:**

vRealize Suite Lifecycle Manager (vRSLCM) uses vRealize Operations Manager to collect and analyze data about the health of the environment. If the SDDC Management Health solution pack is not configured in vRealize Operations Manager, then vRSLCM will not be able to display the health status of the environment.

**QUESTION 7**

Which component is a prerequisite for using vRealize Log Insight Cloud to receive log events from data sources in a private data center?

- A. Log Insight Agent
- B. Cloud Proxy
- C. Cloud Extensibility Proxy
- D. Orchestrator

**Answer: B**

**Explanation:**

The Cloud Proxy is a component that is used to forward log events from a private data center to vRealize Log Insight Cloud. It is installed in the private data center and acts as a middleman between the data sources and vRealize Log Insight Cloud.

### QUESTION 8

Which tool can an administrator use to present infrastructure costs by automatically delivering monthly reports by email?

- A. vRealize Log Insight
- B. vRealize Operations Manager
- C. vRealize Suite Lifecycle Manager
- D. vRealize Network Insight

**Answer: B**

**Explanation:**

vRealize Operations Manager (vROps) is a monitoring and analytics tool that can be used to monitor and manage infrastructure costs. vROps can also be used to generate reports on infrastructure costs, which can be delivered by email on a monthly basis.

### QUESTION 9

Which on premises vRealize Operations component allows visibility into the entire federated environment through a unified view across all on-premises vRealize Operations deployments?

- A. vRealize Operations Aggregator Management Pack
- B. vRealize Multi-Node Management Pack
- C. vRealize Remote Collector
- D. vRealize Cloud Federated Analytics

**Answer: A**

**Explanation:**

The vRealize Operations Aggregator Management Pack allows you to unify your multi-site vRealize Operations Manager deployments into a single pane of glass. You can instantiate a deployment of vRealize Operations with the capability of receiving key metrics for specified objects from other vRealize Operations Manager deployments in your environment.

## Thank You for Trying Our Product

### Lead2pass Certification Exam Features:

- ★ More than **99,900** Satisfied Customers Worldwide.
- ★ Average **99.9%** Success Rate.
- ★ **Free Update** to match latest and real exam scenarios.
- ★ **Instant Download** Access! No Setup required.
- ★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.
- ★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.
- ★ **100%** Guaranteed Success or **100%** Money Back Guarantee.
- ★ **Fast**, helpful support **24x7**.
