Vendor: Huawei

Exam Code: H19-110_V2.0

Exam Name: HCSA-Sales-Storage V2.0

Version: DEMO

QUESTION 1
Which one is the main reason for OceanProtect to have high data reduction ratio?

A. Less backup storage space required, less TCO
B. For high backup performance
C. For high system reliability
D. For system recovery

Answer: A
Explanation:
OceanProtect has high data reduction ratio because it uses advanced deduplication and compression technologies to eliminate redundant data and save storage space. This reduces the backup storage space required and lowers the total cost of ownership (TCO) for customers.

QUESTION 2
Which product is recommended for high-performance computing?

A. OceanStor Pacific
B. OceanStor Dorado
C. OceanStor Protect||OceanStor 9000

Answer: B
Explanation:
OceanStor Dorado is recommended for high-performance computing because it is an all-flash storage product that delivers ultra-high performance, low latency, and high reliability. OceanStor Dorado leverages E2E NVMe, FlashLink, and SmartMatrix technologies to achieve up to 20 million IOPS and 0.1 ms latency, which can meet the demanding requirements of high-performance computing applications.

QUESTION 3
What is the common benefit of mutiple-protocol interworking and hybrid-worload support of OceanStor Pacific?

A. only one storage system required, simplied management and less data copy
B. less foot print
C. Less storage controllers
D. Less computing resource

Answer: A
Explanation:
The common benefit of multiple-protocol interworking and hybrid-workload support of OceanStor Pacific is that it allows customers to use only one storage system for different types of data and applications, such as file, object, HDFS, big data analytics, backup and archiving, video surveillance, and media production. This simplifies the management and reduces the data copy among different systems, which improves the efficiency and lowers the cost.

QUESTION 4
If customer wants to build a storage system with large capacity and less space occupation, which

OceanStor Pacifci mode is....

A. Pacifci 9950
B. Pacifci 9550
C. Pacifci 9520
D. Pacifci 9540

Answer: D
Explanation:
Pacific 9540 is the product model that can build a storage system with large capacity and less space occupation in OceanStor Pacific series. Pacific 9540 adopts a high-density design that can accommodate up to 106 disks in a 4U chassis, which provides up to 1.06 PB of raw capacity. Pacific 9540 also supports erasure coding and compression technologies to further increase the effective capacity and save space.

QUESTION 5
Customer edge sites need storage, computing and network. Which product is recommended?

A. OceanStor Pacific
B. FusionCube
C. OceanStor Protect||OceanStor 9000

Answer: B
Explanation:
FusionCube is a product that is recommended for customer edge sites that need storage, computing, and network. FusionCube is a hyper-converged infrastructure product that integrates storage, computing, network, virtualization, and management into one device. FusionCube provides high performance, scalability, reliability, and simplicity for edge computing scenarios, such as smart city, smart transportation, smart retail, and smart manufacturing.

QUESTION 6
Which tool is recommended when customer wants to manage multiple data storage with one portal?

A. DME IQ
B. DME Storage
C. Device Manager
D. HyperMetro

Answer: B
Explanation:
DME Storage is the software developed by Huawei that provides your data center with centralized management and O&M for storage devices. It covers four phases of the device lifecycle (planning, provisioning, maintenance, and optimization), and improves the automation level and problem resolution rate. DME Storage supports Huawei's full series of centralized storage, Huawei distributed storage, and several mainstream third-party storage systems.

QUESTION 7
Which tool is recommended when customer wants automatic O&M suach as SLA-base automatic configuration and service ...

A. DME IQ
B. DME Storage
C. Device Manager
D. HyperMetro

Answer: B
Explanation:
DME Storage provides intelligent provisioning features that enable users to complete resource provisioning in a few steps. It supports SLA-based automatic configuration and service catalog management, which can simplify the service deployment process and improve the efficiency of resource utilization. DME Storage also supports Ansible-based flexible service provisioning modes for all scenarios.

QUESTION 8
Which tool is recommended when customer wants intelligent O&M functions such as health evalution or intelligent prediction?

A. DME IQ
B. DME Storage
C. Device Manager
D. HyperMetro

Answer: A
Explanation:
DME IQ is an intelligent cloud O&M platform that combines big data analytics and Artificial Intelligence (AI) to provide data infrastructure with automatic fault reporting, and problem management and tracking. DME IQ can intelligently predict risks from multiple dimensions, such as disk failure, performance, and capacity, with high accuracy and resolution rate. DME IQ also provides real-time evaluation and scoring of system health, performance analytics and diagnosis, capacity prediction and planning, and intelligent capacity prediction.

QUESTION 9
Which of the following is NOT included in All-flash Acceleration solution?

A. Primary storage acceleration
B. Backup acceleration
C. HPDA acceleration
D. Secondary storage acceleration

Answer: D
Explanation:
Secondary storage acceleration is not included in Huawei's All-Flash Acceleration solution. The All-Flash Acceleration solution consists of three parts: primary storage acceleration, backup acceleration, and High-Performance Data Analytics (HPDA) acceleration. Primary storage acceleration uses OceanStor Dorado all-flash storage to deliver ultra-high performance, low latency, and high reliability for mission- critical workloads. Backup acceleration uses OceanProtect backup storage to provide fast backup and recovery for enterprise data. HPDA acceleration uses FusionCube hyper-converged infrastructure to integrate storage, computing, network, virtualization, and management into one device for edge computing scenarios.

Thank You for Trying Our Product

Passleader Certification Exam Features:

★ More than **99,900** Satisfied Customers Worldwide.

★ Average **99.9%** Success Rate.

★ **Free Update** to match latest and real exam scenarios.

★ **Instant Download** Access! No Setup required.

★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.

★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.

★ **100%** Guaranteed Success or **100%** Money Back Guarantee.

★ **Fast**, helpful support **24x7**.
