Vendor: Dell-EMC

Exam Code: D-CSF-SC-01

Exam Name: Dell Technologies NIST Cybersecurity Framework 2.0

Version: DEMO

QUESTION 1
Match each Recover Function component with its primary activity.

Component
Disaster Recovery
Business Continuity
Data Restoration
Impact Analysis

Primary Activity
A) Implementing backup solutions
B) Ensuring minimum disruption to operations
C) Recovering data post-incident
D) Assessing the effect on business and finances

A. Disaster Recovery - A
Business Continuity - B
Data Restoration - C
Impact Analysis - D
B. Disaster Recovery - A
Business Continuity - B
Data Restoration - D
Impact Analysis - C
C. Disaster Recovery - A
Business Continuity - C
Data Restoration - B
Impact Analysis - D
D. Disaster Recovery - B
Business Continuity - A
Data Restoration - C
Impact Analysis - D

Answer: A

QUESTION 2
What is the primary focus of the BIA?

A. Prevents threats to the environment
B. Determines criticality of assets to the business
C. Identifies roles and responsibilities for asset recovery
D. Maintains controls for recovery

Answer: B

QUESTION 3
What are the five categories that make up the Response function?

A. Response Planning, Data Security, Communications, Analysis, and Mitigation
B. Response Planning, Communications, Analysis, Mitigation, and Improvements
C. Mitigation, Improvements, Maintenance, Response Planning, and Governance
D. Awareness and Training, Improvements, Communications, Analysis, and Governance

Answer: B

QUESTION 4
In the NIST Cybersecurity Framework, the "Tiers" component is used to assess which of the following?

A. Cybersecurity incident response
B. The organization's risk management maturity
C. Network encryption standards
D. The organization's compliance with regulations

Answer: B

QUESTION 5
What contains a predefined set of efforts that describes an organization's mission/business critical processes, and defines how they will be sustained during and after a significant disruption?

A. Disaster Recovery Plan
B. Risk Assessment Strategy
C. Business Continuity Plan
D. Business Impact Analysis

Answer: C

QUESTION 6
What entity offers a framework that is ideally suited to handle an organization's operational challenges?

A. COBIT
B. COSO
C. NIST
D. ISO

Answer: D

QUESTION 7
Which of the following best describes the purpose of the Detect Function within the NIST Cybersecurity Framework?

A. To identify potential security incidents
B. To develop disaster recovery plans
C. To create security awareness among employees
D. To restrict access to critical systems

Answer: A

QUESTION 8

What type of controls are crucial within the Identify Function for inventory classification?

A. Physical security controls
B. Data security controls
C. Classification and access controls
D. Network access controls

Answer: C

QUESTION 9
Your organization has been breached. The attacker has sent an email demanding $100,000 in cryptocurrency in exchange for not dumping all your customer information onto the dark web. Following the RACI Matrix model outlined in your IRP, you have informed all parties, contained the breach, and eradicated the threat.
What needs to be done next?

A. Update response strategies
B. Performs forensics
C. Investigate notifications from detection systems
D. Categorize incidents consistent with Response Plan

Answer: A

QUESTION 10
A new employee is starting work at your company. When should they be informed of the company's security policy?

A. Based on human resource policy
B. After the first security infraction
C. Annual security policy review
D. During regular security awareness sessions

Answer: D

QUESTION 11
What activity informs situational awareness of the security status of an organization's systems?

A. IDP
B. RMF
C. ISCM
D. DPI

Answer: C

QUESTION 12
What are the main components of the NIST Cybersecurity Framework?

A. Core, Categories, and Tiers
B. Functions, Profiles, and Tiers

C. Categories, Tiers, and Profiles
D. Core, Tiers, and Profiles

Answer: D

QUESTION 13
Which tools can support the Detect Function's goal of identifying cybersecurity events? (Select two)

A. Intrusion Detection Systems (IDS)
B. Identity and Access Management (IAM)
C. Security Information and Event Management (SIEM)
D. Disaster Recovery Planning (DRP) tools

Answer: AC

QUESTION 14
Which activity is crucial in the Respond Function to ensure proper documentation of the steps taken during a cybersecurity incident?

A. Continuous monitoring
B. Incident analysis
C. Communications planning
D. Incident documentation

Answer: D

QUESTION 15
When implementing the NIST Cybersecurity Framework, what is the first step in the implementation process?

A. Conduct a risk assessment
B. Define the current cybersecurity profile
C. Identify gaps in security policies
D. Create a communication plan

Answer: B

QUESTION 16
What is a consideration when developing a Disaster Recovery Plan?

A. Define scenarios by type and scope of impact
B. Develop termination strategies
C. Exchange essential information between stakeholders
D. Method to terminate incident responses

Answer: C

QUESTION 17
What contains a predefined set of instructions or processes that describes the management policy, procedures, and written plan defining recovery of information systems?

A. RAS
B. DRP
C. BIA
D. BCP

Answer: D

QUESTION 18
What is an accurate statement concerning the Cyber Resilient Lifecycle (CRLC) and the Cybersecurity Framework (CSF)?

A. The CRLC is focused on business resiliency; the CSF is focused on providing a framework.
B. The CRLC can be used to make the CSF actionable.
C. The CRLC is focused on cybersecurity; the CSF is focused on science and technology.
D. The CRLC and CSF are separate frameworks, and are used separately.

Answer: B

QUESTION 19
What is part of the Pre-Recovery phase?

A. Backup validation
B. Validate functionality
C. Restore assets
D. Monitor assets

Answer: B

QUESTION 20
A company is conducting awareness training for all employees to recognize phishing attacks. This activity aligns with which part of the Protect Function?

A. Access Control
B. Protective Technology
C. Awareness and Training
D. Data Security

Answer: C

Thank You for Trying Our Product

Passleader Certification Exam Features:

★ More than **99,900** Satisfied Customers Worldwide.

★ Average **99.9%** Success Rate.

★ **Free Update** to match latest and real exam scenarios.

★ **Instant Download** Access! No Setup required.

★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.

★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.

★ **100%** Guaranteed Success or **100%** Money Back Guarantee.

★ **Fast**, helpful support **24x7**.
