Vendor: Fortinet

Exam Code: FCP_FMG_AD-7.6

Exam Name: FCP - FortiManager 7.6 Administrator

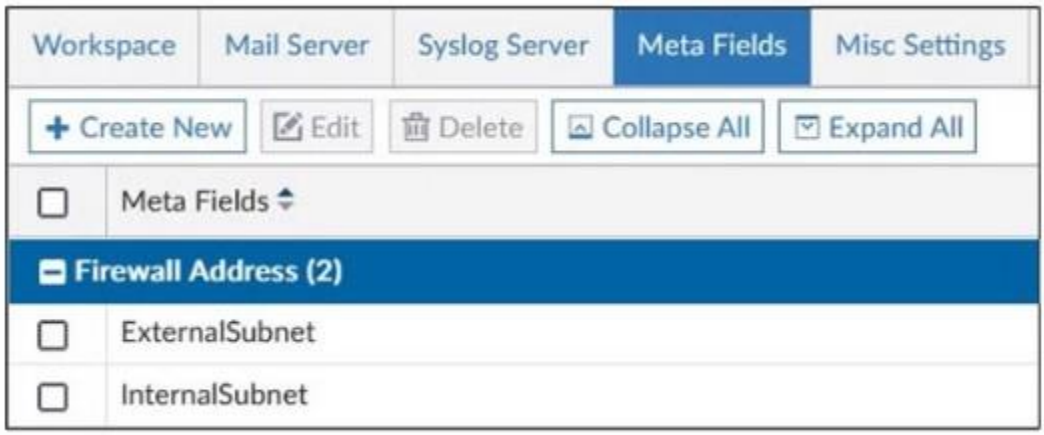
Version: DEMO

QUESTION 1
What is the purpose of ADOM revisions?

A. ADOM revisions find unused, duplicate, and unnecessary firewall policies and objects.
B. ADOM revisions show specific changes in a policy package when it is installed.
C. ADOM revisions compare previous snapshots of the Policy Package and ADOM-level objects with the device-level database.
D. ADOM revisions save the current state of all policy packages and objects for an ADOM.

Answer: D
Explanation:
ADOM revisions save the current state of all policy packages and objects within an ADOM, allowing administrators to track changes over time and revert to previous configurations if needed.

QUESTION 2
Refer to the exhibit. An administrator created two new meta fields in FortiManager.



Which operation can you perform with these parameters?

A. You can add them to objects as custom attributes.
B. You can export them to be used in other ADOMs.
C. You can use them as variables in scripts.
D. You can invoke them using the $ character.

Answer: A
Explanation:
Meta fields in FortiManager can be added to objects as custom attributes, allowing administrators to categorize and add additional information to firewall objects for easier management and identification.

QUESTION 3
Push updates are failing on a FortiGate device located behind a network address translation (NAT) device?
Which two settings should the administrator check to correct this problem? (Choose two.)

A. Make sure the NAT device IP address and the correct ports are configured on FortiManager.
B. Make sure FortiGuard updates and web service are enabled on the FortiGuard service interface.
C. Make sure the virtual IP address and the correct ports are configured on the NAT device.
D. Make sure the Bind to IP address option on the FortiGuard service interface is set to the virtual IP address from the NAT device.

Answer: AC
Explanation:
FortiManager must have the NAT device's IP address and correct ports configured to communicate properly with the FortiGate behind NAT.
The NAT device must have the correct virtual IP address and ports configured to allow push updates to reach the FortiGate device.

QUESTION 4
The administrator uses FortiManager to push a CLI script using the Remote FortiGate Directly (via CLI) option to configure an IPsec VPN. However, when running the script, the administrator receives the following error:

```
config vpn ipsec phase2-interface [parameter(s) invalid. detail: object mismatch]
```

What must the administrator do to resolve the script error and successfully apply the IPsec configuration?

A. Add the end command after finishing the IPsec phase 1-interface configuration block.
B. Use IPsec templates to deploy provisioning templates.
C. Add a second config vpn ipsec phase2-interface block without linking it to phase1.
D. Run the script using the policy package or ADOM database method.

Answer: D
Explanation:
Running the script through the policy package or ADOM database method allows FortiManager to properly interpret object relationships and dependencies in the IPsec configuration, preventing object mismatch errors when pushing complex VPN settings directly via CLI.

QUESTION 5
An administrator has a FortiGate-HQ device with VDOMs--root, HR and Facilities, currently managed under the FortiManager ADOM--Site1. They try to move VDOM HR to the FortiManager ADOM-- Site2, but it does not work.
Why is the administrator not able to move FortiGate-HQ VDOM HR to FortiManager ADOM--Site2?

A. The FortiGate-HQ must be managed under the FortiManager ADOM--root to allow moving its VDOMs to different ADOMs.
B. The administrator must have full access in the device layer of FortiGate-HQ VDOM-root before they can VDOMs to different ADOMs.
C. FortiManager must be in ADOM normal mode, which does not allow VDOMs to be managed separately.
D. The administrator must delete the FortiGate-HQ device from FortiManager and add it again using the Add Device wizard before moving the VDOM.

Answer: A
Explanation:
FortiGate devices must be managed under the FortiManager ADOM corresponding to the root VDOM to allow their individual VDOMs to be moved and managed in different ADOMs. Managing the root VDOM in a different ADOM prevents moving subordinate VDOMs across ADOMs.

QUESTION 6
After correcting a policy package configuration issue, you want to prevent administrators from repeating the mistake that caused the issue.
Which FortiManager approach best meets this need?

A. Configure an TCL script to run locally on FortiManager for each FortiGate.
B. Restrict administrators with an administration profile from viewing the revision history to limit who can make changes.
C. Enable the change note to require administrators to add a note whenever they change object configurations.
D. Enable a workflow requiring approval before installing policy packages on any FortiGate.

Answer: D
Explanation:
Enabling a workflow with approval ensures that any policy package changes must be reviewed and approved before installation, preventing administrators from repeating configuration mistakes and enforcing change control.

QUESTION 7
Which output is displayed right after moving the ISFW device from one ADOM to another?

A.
```
FortiManager # diagnose dvm device list ISFW
--- There are currently 4 devices/vdoms managed ---
--- There are currently 4 devices/vdoms count for license ---

TYPE            OID    SN               HA      IP            NAME          ADOM     IPS                FIRMWARE
fmgfaz-managed  325    FGVM010000077646 -       10.0.1.200    ISFW          ADOM74   6.00741 (regular)  7.0 MR4 (2463)
                |- STATUS: dev-db: not modified; conf: in sync; cond: OK; dm: retrieved; conn: up
                |- vdom:[3]root flags:0 adom:ADOM74 pkg:[unknown]ISFW
```

B.
```
FortiManager # diagnose dvm device list ISFW
--- There are currently 4 devices/vdoms managed ---
--- There are currently 4 devices/vdoms count for license ---

TYPE            OID    SN               HA      IP            NAME          ADOM     IPS                FIRMWARE
fmgfaz-managed  325    FGVM010000077646 -       10.0.1.200    ISFW          ADOM74   6.00741 (regular)  7.0 MR4 (2463)
                |- STATUS: dev-db: not modified; conf: in sync; cond: OK; dm: autoupdated; conn: up
                |- vdom:[3]root flags:1 adom:ADOM74 pkg:[out-of-sync]ISFW
```

C.
```
FortiManager # FortiManager # diagnose dvm device list ISFW
--- There are currently 4 devices/vdoms managed ---
--- There are currently 4 devices/vdoms count for license ---

TYPE            OID    SN               HA      IP            NAME          ADOM     IPS                FIRMWARE
fmgfaz-managed  325    FGVM010000077646 -       10.0.1.200    ISFW          ADOM74   6.00741 (regular)  7.0 MR4 (2463)
                |- STATUS: dev-db: not modified; conf: in sync; cond: OK; dm: installed; conn: up
                |- vdom:[3]root flags:0 adom:ADOM74 pkg:[never-installed]
```

D.
```
FortiManager # diagnose dvm device list ISFW
--- There are currently 4 devices/vdoms managed ---
--- There are currently 4 devices/vdoms count for license ---

TYPE            OID    SN               HA      IP            NAME          ADOM     IPS                FIRMWARE
fmgfaz-managed  325    FGVM010000077646 -       10.0.1.200    ISFW          ADOM74   6.00741 (regular)  7.0 MR4 (2463)
                |- STATUS: dev-db: not modified; conf: in sync; cond: OK; dm: installed; conn: up
                |- vdom:[3]root flags:0 adom:ADOM74 pkg:[imported]ISFW
```

Answer: C
Explanation:
Never Installed - The assigned policy package is not the result of an import for this device, and the package has not been installed since it has been assigned to this device.

Thank You for Trying Our Product

Passleader Certification Exam Features:

★ More than **99,900** Satisfied Customers Worldwide.

★ Average **99.9%** Success Rate.

★ **Free Update** to match latest and real exam scenarios.

★ **Instant Download** Access! No Setup required.

★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.

★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.

★ **100%** Guaranteed Success or **100%** Money Back Guarantee.

★ **Fast**, helpful support **24x7**.
